

## FOOT PUMP

### VIBP

The foot pump is designed for inflating tyres, sports balls, inflatables and other equipment requiring compressed air. With a maximum pressure of 5 bar and an air volume of 200 cm<sup>3</sup> per stroke, it delivers efficient inflation for a wide range of applications. The built-in pressure gauge allows accurate pressure monitoring during use. Its robust metal construction and non-slip base provide stability and durability for frequent use.

### Key features

- > Maximum pressure of 5 bar
- > 200 cm<sup>3</sup> air volume
- > Built-in pressure gauge
- > Robust metal construction
- > Non-slip base
- > Suitable for tyres, balls and inflatables

### Specifications

|                  |                     |
|------------------|---------------------|
| Maximum pressure | 5 bar               |
| Volume           | 200 cm <sup>3</sup> |
