

GALVANIZED WHEELBARROW 85L - DISASSEMBLED VICA20ME

Galvanized wheelbarrow designed for transporting materials in construction, gardening, agricultural and maintenance tasks. The tray is manufactured from 0.9 mm galvanized steel sheet, providing corrosion resistance and durability for outdoor and job site use. With a capacity of 85 litres and a load capacity of up to 150 kg, it allows efficient movement of various materials. The robust steel frame provides stability during transport and handling. Supplied disassembled to facilitate transport, storage and logistics prior to assembly.

Key features

- > Galvanized steel tray for corrosion resistance
- > Load capacity up to 150 kg
- > 85 litre material capacity
- > Robust frame for construction and garden work
- > Supplied disassembled for easier transport

Specifications

Capacity	85 L
Load capacity	150 Kg
Tray	Square tray
Wheel guard	Yes
Wheel type	Pneumatic
Dimensions	tray: 940 x 540 mm
Size	940 x 540mm

Variants

Reference	Wheel Type
VICA20ME	pneumatic
VICA20MEPU	pu
