

THINSULATE BEANIE HAT

VIGT

Distinguished by its 3M Thinsulate Insulation technology, this beanie hat contains an acrylic fibre with insulating properties, keeping the head warmer in cold conditions without significantly increasing the volume or even the weight of the beanie. It also provides excellent comfort and thermal protection.

Key features

- > Simple, modern and lightweight design;
- > Improved thermal insulation;
- > Lightweight and comfortable;
- > Moisture resistance;
- > Quick drying;
