

REDEYE

SELF-LEVELLING 2X RED LINE LASER LEVEL - 360° HORIZONTAL + VERTICAL - 10M

VILAPHLV2

Self-levelling Laser Flat 360° + vertical line with a rated power of 6V (4 x 1.5 V LR06), has a laser power Class 2 < 1mW, with a laser line width of 100 lux, 3mm/5m with a radius of action of 10 metres, has an autonomy for > 15 hours, performing all its l

Key features

> Projection of vertical, horizontal and cross lines. - It has an automatic levelling system up to 4° in 4 seconds. - Enables the locking of the levelling unit, giving greater accuracy to the line. - Integrated 1/4" locking thread.

Specifications

Automatic self-levelling	Yes
Autonomy	> 15 horas
Dimensions	100 x 70 x 110 mm
Integrated 1/4" locking thread	Yes
Laser line width	100 lux, 3 mm/5 m
Laser output power	Classe 2 < 1 mW
Laser wavelength	635 nm
Leveling unit locking	Yes
Line projection	Crossed, vertical and horizontal
Measurement accuracy	± 0,5 mm/m
Operating temperature	0 - 40° C
Packaging dimensions	155 x 75 x 260 mm
Product weight	330 g
Rated power	6 V (4 x 1,5 V LR06)
Weight with packaging	615 g
Working Range	10 metros
